ARTICLE 12. SCRUTINEERING AND DOCUMENTATION

Competitors must first report to Noise Check and pass the Noise Test [J5.18] prior to presenting their vehicle at Scrutineering. Exact details of locations will be given in Competitor Information #1.

At Scrutineering cars will be checked for compliance with current MSA Tyre, Technical and Safety Regulations [R46-R49] and class eligibility. Each entrant will be assumed to have full knowledge of the car and its eligibility for stage rallies. Cars must be presented in the same condition as they intend to compete.

A validated MSA Rally Special Stage Vehicle Log Book [R25.2] and MOT Certificate where appropriate [R46.1.2] must be produced for inspection at Scrutineering and on demand throughout the event. Racesuits, Helmets and FHR devices will be checked for compliance [K9 + K10] and must be worn on Special Stages [R25.3.1 + R25.3.2 + 25.3.3]. All cars must carry a warning triangle, OK/SOS board, and **an approved Environmental Spill Kit** [J5.20.13]. These will be available for purchase from the Environmental Scrutineer at Noise Check, and will cost approximately £5.

There are no in-car cameras [J.5.21.1] allowed due to MOD restrictions. Where possible camera brackets should be removed before Scrutineering. If any vehicle has a non-removable camera installed, this must be declared by the competitor prior to the event and be disabled to the satisfaction of the Scrutineers.

All competitors must have signed on and completed all documentation at least one hour before his or her scheduled starting time otherwise he/she may be deemed a non-starter, and his/her number allocated to a reserve.

ARTICLE 13. CONTROLS AND TIMING

Target timing will apply as per [R31]. Timing of controls will be to the previous whole minute. Timing of special stages will be to the previous whole second [R31.1.3]. The Rally will be divided into Road Sections and Special Stages. All controls other than Passage Controls [PCs] will be Time Controls [TCs]. Each road section will be allotted a Target Time based on 30mph average or less and a competitor can calculate his Due Time of arrival at a TC by adding the Target Time to his actual time of departure from the preceding TC.

All Special Stages will have a Bogey Time set at 70mph and a Target Time set at approximately 30mph (or less on short stages). Bogey and Target Times will be found in the Route Book. Competitors will receive penalties as follows:

- | | |
|--|--|
| ▪ Under Bogey Time | Bogey Time |
| ▪ Over Bogey Time but under Target Time | Actual Time taken |
| ▪ Over Target Time by up to 15 minutes | Target Time |
| ▪ Over Target Time by more than 15 minutes | OTL – the competitor will be deemed to have retired |

However, excess lateness taken over Target on Road Sections and Special Stages is cumulative and once lost cannot be regained. When accumulated lateness between any two adjacent Main Controls exceeds the permitted maximum of 15 minutes, a competitor will be deemed to have retired. **The 15 minutes lateness will be penalty free.**

Should any recorded time not be legible or not appear authentic the organisers may use any means at their disposal to establish a time. It is a competitor's responsibility to ensure that their times are correctly recorded and handed in when and where instructed. Once a time has been accepted by a competitor no further claims will be entertained. Any adjustment caused by a Timekeeper's error MUST be made at the Control in question. [R11.1.4]

The following titles shall describe the various types of Time Controls:

[a] Main Control - MC - [Appendix 1, Drawing No 29.4.1, Signs 1 and 2]

- *Main controls will be situated at the Start and Finish of the rally. Each competitor will be given a due starting time from MC0 and the difference between this starting time and his/her actual starting time will be counted towards exclusion for overall lateness and a time penalty will be applied. [R32.2.]*

[b] Special Stage Arrival Control - ATC - [Appendix 1: Drawing No 29.4.1, Signs 1 and 2]

- *On arrival at the ATC a competitor will receive an arrival time only when he/she is ready to start the stage [helmets and seatbelts on, etc.] A competitor who is early may wait for his/her due time outside the control area [R30.2]. A provisional start time for the special stage will also be given [R31.2.11]. This will be no less than 3 minutes from the arrival time. Competitors must then proceed immediately to the start line.*

[c] Special Stage Start Control - SSS - [Appendix 1, Drawing No 29.4.1, Sign 3]

- *At the SSS the competitor should be ready to start the stage on the provisional start time given at ATC. Once a competitor has clocked in at an ATC the Start Marshal will assume he/she is ready to start the stage and will issue a time as soon as the start line is clear, whether the competitor is ready to start or not. The Marshal will inform the competitor at 30 seconds to go. Thereafter, the normal start sequence will be controlled by automatic traffic light, showing 15, 10, 5, 4, 3, 2, 1, 0 seconds to go. [R25.7.2] In the event of system failure a verbal countdown and manual signal will be given as per [R25.7.1]. As each section is timed separately the time taken from SSA to SSS is 'Dead Time' and delays are automatically allowed for. The control area between Sign 2 at the SSA and Sign 3 at the SSS will be 'parc ferme' [R38.2.1].*

[d] Special Stage Finish Control - SSF - [Appendix 1, Drawing No 29.4.1, Signs 4, 5, 6, 7]

- *At the SSF a competitor will receive his/her finish time in hours, minutes and seconds. This time in hours and minutes will be the start time for the following Road Section. Any competitor who fails to stop at the 'STOP' Line must return on foot. Reversing is prohibited and subject to exclusion [R25.6.1].*

[e] Service Control - SV - [Appendix 1, Drawing No 29.4.1, Signs 1 and 2]

- *The Service Area will have 'In' and 'Out' Time Controls. A Target Time for each competitor will be specified between these controls*

[f] Passage Control - PC

- *At certain points indicated in the Road Book the organisers may establish a PC in order to collect Time Cards from competitors, or for other purposes. There will be no official times recorded at these controls, but a competitor failing to provide the necessary documents at any PC will be deemed not to have visited that control. [R12.4.3] It is a competitor's responsibility to ensure that their times are correctly recorded and handed in when and where instructed. Once a time has been accepted by a competitor no further claims will be entertained. Any adjustment caused by a Timekeeper's error must be made at the Control in question. [R11.1.4]*

ARTICLE 14. SIGNS

Competitors will be supplied with a Road Book and Time Card at signing on. These documents will provide all the information necessary as per [R2.3.2 + R33]. Although all no-entries should be blocked as per MSA recommendation, the Stage Route as given will be deemed adequate for competitors to find the correct route through the stage. Stage signs will be as [R29].

ARTICLE 15. SERVICING / REFUEL

There will be one Service Area, at Girdstingwood Rally HQ Complex, for the duration of the event.

Due to heightened security, every vehicle entering the Girdstingwood Service Area MUST be pre-registered on the Entry Form. A maximum of one Service Vehicle will be permitted per competing crew. All other vehicles may be parked in the nearby Car Park.

Service is defined as work carried out on the car by any person other than the Driver or Co-driver, or the use of any part or tool not carried in the competing car [R38]. **All servicing must take place on a groundsheet/tarpaulin.** Contravention of these regulations will be reported to the Clerk of the Course who may apply the penalty of Exclusion.

Auxiliary Service out with the Girdstingwood Service Area will **not** be permitted.

Crews may work unassisted on their own cars, using parts and tools carried in their rally car, in 'No Service Areas' except for:

- **Within 100m of any control**
- **Between a Special Stage Arrival Control and Special Stage Start**

The only work permitted in these areas is to be unassisted [R38.2.1] and is as follows:

- **Cleaning lamp glasses, windscreens, windows, identification markings and vehicle registration numbers**

Service Crews will be subject to the same regulations as competitors regarding noise, bad driving, manners, etc, and marshals and Judges of Fact have been instructed to note any infringement of these rules. Competitors are responsible for ensuring that their Service Crews understand and comply with this regulation.

Refuel Zone - a manual Refuel Zone will be set up adjacent to the Service 'OUT' control. Refuelling is NOT allowed within the Service Area. Competitors may take their own fuel into the Refuel Zone. Refuelling from Service Vehicles anywhere other than the Manual Refuel Zone at the Service Area is strictly prohibited.

ARTICLE 16. DAMAGE DECLARATION

Competitors will be required to sign a declaration to the effect that they have not been involved in any incident that may have caused damage or injury to persons, animals or property, or alternatively giving details of any such incident where damage or injury has occurred [R15.1.2]. Any information given will not incur a penalty but failure to hand in a completed report will be penalised by exclusion. Competitors who do not report at the finish are required to forward their Damage Declaration to the Event Secretary within 72 hours of the event, unless they have been involved in an incident, in which case details must be given to the organisers the same day [R15.1.3]. Competitors who fail to do so will be reported to the MSA.

ARTICLE 17. JUDGES OF FACT

Named Judges of Fact appointed by the organisers will be on duty throughout the event to observe and report upon any Competitor, Service Crew or Auxiliary Crew, considered being in contravention of [R24.7 + R24.8 + R24.9 + R24.10] as well as [SR Article 15]. These Judges of Fact are empowered to exclude competitors on the spot.

A list of Judges of Fact will be on display at Documentation.

The start officials on all Special Stages will be empowered to judge whether or not a competitor has made a jump start.

Any notified offence by a Competitor or their Service/Auxiliary Crew which involves speeding, reckless driving or failure to observe road signs will automatically be considered as a possible contravention of [C1.1]. The Competitor concerned is liable to be penalised in accordance with [R32.2, chart 32.2] and reported to the MSA.

ARTICLE 18. PENALTIES

Penalties will be applied as [R32.2] except as modified below:

The following offences will carry a penalty of **EXCLUSION**:

- [1] Servicing/Refuelling contrary to SR Article 15.
- [2] Driving in the reverse direction on a Special Stage or reversing to a Special Stage Stopleveline after overshooting.
- [3] Failure to wear properly fastened seat belts and crash helmets on a Special Stage.
- [4] Causing an obstruction on an access road to a Special Stage or on a Special Stage.
- [5] Contravention of SR Article 12 regarding in-car cameras permissions.
- [6] Contravention of SR Article 16.
- [7] Contravention of SR Article 19 or failure to use SOS/OK boards correctly.

To be classified as a finisher, competitors must complete the full course, without incurring the penalty of exclusion, and arrive at the final MC within 15 minutes lateness, otherwise they will be OTL and the competitor will be deemed to have retired.

ARTICLE 19. MEDICAL ASSISTANCE

At Event Documentation competitors will be issued with an A3-size numbered **SOS / OK** board to be used as [R25.4]. The boards issued by the organisers **MUST** be used on this event to the exclusion of all others.

In the case of an accident where urgent medical attention is required: where possible the **SOS** board should be immediately displayed to the following cars, and to any helicopter attempting to assist.

Any competing crew which has the red **SOS** board displayed to them, or sees a car which has sustained a major accident but is not displaying the **SOS** board and **where both crew members are not outside the car**, shall immediately and without exception stop to render assistance. All following cars shall also stop. **The second car at the scene shall proceed to inform the next radio point.** Subsequent cars should leave a clear route for emergency vehicles. The Clerk of the Course, at his discretion, will award a notional time to any competitor(s) delayed by complying correctly with R25.4 as noted above.

The penalty for not stopping at an **SOS** board, or when no board is displayed, is **EXCLUSION**, with a report being submitted to the MSA. The penalty for displaying an **SOS** Board when urgent medical assistance is not required is **EXCLUSION**, with a report being submitted to the MSA.

In the case of an accident where medical intervention is not required: the **OK** board must be clearly shown **by a crew member** to the following vehicles, and to any helicopter attempting to assist. If the crew leaves the vehicle, the **OK** board must be displayed so that it is clearly visible to other competitors.

Competitors are asked to make themselves familiar with the requirements of [R25.4], and to thoroughly understand the MSA Yearbook regulations regarding the **SOS / OK board procedure before the event begins.**

Each competing car must carry a red reflective triangle. In the event of the car stopping in a Special Stage, this triangle must be placed in a visible position by a member of the crew, at least 50m before the car's position, in order to warn following crews. This triangle must be placed even if the stopped car is off the road.

ARTICLE 20. RED FLAGS

The **Red Flag Procedure** will operate on all Special Stages. It will be applied if it is necessary to authorise through a shortcut the movement of non-competing or rescue vehicles on stage before competition has ceased.

Competitors who are shown a Red Flag must cease competition, substantially reduce their speed, as well as being prepared to stop at any time; at no time must they overtake any safety vehicle they encounter on the special stage route. Competitors must then follow the instructions of any marshals and/or stage safety personnel, and maintain this reduced speed until leaving the special stage. Any competitor failing to stop will be reported by radio and subsequently in writing to the Clerk of the Course, and will be penalised at his discretion.

Competitors are asked to make themselves familiar with the requirements of [R24.4.5] and [R25.6.4] and to thoroughly understand the MSA Yearbook regulations regarding Red Flag procedure before the event begins.

ARTICLE 21. PACE NOTES / PRACTISING

[a] Pre-event practising or testing on the special stages contained in this event is strictly forbidden [R5.1.4 + R26.7]. Any competitor or his/her agent observed on the stages after the publication of these regulations will be refused a start or excluded from the results as appropriate. The only exception to this regulation will be for persons who live on or whose employment causes them to travel on the roads in question, or as defined in Article 27.

[b] The possession of pace notes by a Competitor during the course of the rally, whether or not they relate to the stages being used on the rally, is forbidden [R25.9].

[c] Routenotes prepared by **Scotmaps** [Bill Sturrock] will be available in various formats. These must be **pre-ordered** either by telephone: **01356 625080**, or by visiting **www.scotmaps.co.uk**. Please note that due to security restrictions there will be no DVDs available.

ARTICLE 22. INSURANCE

Vehicles must have Insurance in place which provides Third Party Liability cover that complies with the Road Traffic Act. This can be either, by extending an existing motor policy to cover the event, or, by purchasing additional cover as an adjunct to an existing motor policy.

If a competitor uses an extension to an existing policy, they will be required to sign a declaration that the cover complies with the requirements of the Road Traffic Act. Any responsibility for a fraudulent or misleading declaration about existing cover lies with the competitor.

The basic rate for the event before any load premium will be **£20.00**. If a competitor wishes purchase additional cover via the organisers then they can do so prior to the event providing they comply with the following.

Anyone aged less than 19 years old will also be accepted at the same price should their co-driver be a more senior member of their family or over 25.

Any competitor who falls outside these parameters may be offered cover at equivalent terms or an agreed price, if approval from REIS Motorsport Insurance has been obtained by the event organisers, prior to the event. **Please contact REIS Motorsport Insurance by calling 0115 965 1020** at least one working day prior to the event commencing – only in extreme conditions will they refuse insurance or a load premium.

Additional cover provided by this scheme is only effective whilst the vehicle is actively competing in the event, and remains under the control or direction of the event organiser(s). Cover will cease immediately if you are precluded, excluded or retire from the event.

The Event Organiser's RTA scheme is provided by REIS Motorsport Insurance, and underwritten Zenith Marque Insurance Services Ltd. REIS Motorsport Insurance is a trading name of the Insurance Factory Limited.
